12. What did you like most about the course and/or the instructor?
13. What did you like least about the course and/or the instructor?

12. He’s fucking awesome.
13. I’m not a fan of his accent. Too heavy. Also he should lose some weight.

12. He is the fucking man.
13. You can not hate on perfection.

12. He was a very good teacher and I learned the material easily.
13. There was a lot of homework.

12. Very lenient.
13. Hard to stay on topic. Wasted class time.

12. The professor was very engaging and found a way to make the subject matter interesting. Explained the topics very clearly. I have nothing negative to say about him at all.
13.

12. The class is shittily organized, but Tristan takes it in stride and makes crap awesome. He made this my favorite class of the semester. I made my friend skip his class and come to this one. He got better grades on his tests.
13.

12. Tristan was great!
13. It’s not fair that students who don’t have the author of the final in class because they are unfamiliar with his style.

12. Instructor
13. Web-work is wonky

12. Tristan is crazy!
13.

12. Tristan is fucking awesome.
13. The final + midterm suck.
12. I learned how to do probability better.
13. He strays from topic ALOT + easily.

12. I loved coming to class every week to be greeted by the enthusiastic and excited instructor who I’d have to call my favorite teacher.
13. The tests.

12. Funny, entertaining, not always about math is nice.
13. Midterm and Final SUCK and should be written by this instructor instead of anyone else!

12. That Tristan is bitchin! As in, somewhat acceptable as an instructor. And pretty good.
13. Here’s a Christmas tree. [Drawing of a Christmas tree and a present]

12. I liek cake worm cake! I will quite this man for years! Math kinda sucks, but out instructor made it tons of fun. “Spleen is the new 5.”
13.

12. He made math fun, even though Finite sucks.
13. Finite sucks a big one and is useless.
14. Tristan is the best math teacher ever and should have a raise worth all of the money.

12. [Drawing of a face that looks confused or dismayed]
13.

12. This class makes me happy [Smiley face with tongue] Tristan is my hero!
13.

12. I don’t like math. But I liked Tristan so much I actually skipped my actual Finite class for the last two months of the year. He is badass incarnate. I also did a hell of a lot better on WebWork after I made the switch. So, yeah, he’s a cool guy. All Hail Oodle Doodle!
13. As I said before, I hate math. And Finite is no exception. I would have been miserable had I not come to this class. In case you’re interested, my actual instructor is Nusret Balci, and I was in his MWF class from 11:15-12:05 in Ballantine. He wasn’t terrible, just boring. On a final note, if I was in Tristan’s class from Day One, I would have gotten an A.

12. Tristan is an awesome teacher. He breaks the material down in the simplest of terms & makes it easy to understand. He makes learning the material fun & is always available when students need help.
13. I don’t like the textbook AT ALL! It doesn’t help & doesn’t explain the material what-so-ever! Also, sometimes Tristan gets very distracted & I feel he waste time. Webwork is unreasonably difficult & nervewracking.
12. Tristan was an awesome teacher! He explained the material in an “easy-to-understand” way and always was willing to help. I also love that he wants all of his students to do well! Plus, he was really strange which kept the class interesting.

13. I think the midterms/final should be written for each class by their instructor.

12. Class is awful. Tristan was awesome. [Picture of a bird / egg with hair and a bow tie.]
Oodle Doodle

13. I love my instructor because he makes math less depressing. I hate this course however because I don’t feel a random guy should make the final and midterm, our teachers should do it.

13. Two words. BAD ASSERY! Sums up Tristan. Math blows, but he made it all good. Oodle Doodle says you should give him a raise.

13. He makes it significantly more bearable. He’s hilarious and makes me hate math less.

13. The Finite textbook is completely useless. Thankfully I was forewarned and didn’t buy one.

12. My teacher, Tristan, & class environment.

13. Pointless information. Midterm & Final exams were insanely unfair.
